You do not need to be present at the auction itself: our company will gather the necessary documents, prepare the car for customs clearance and send it to the desired location.

REPUTATION AT THE TOP

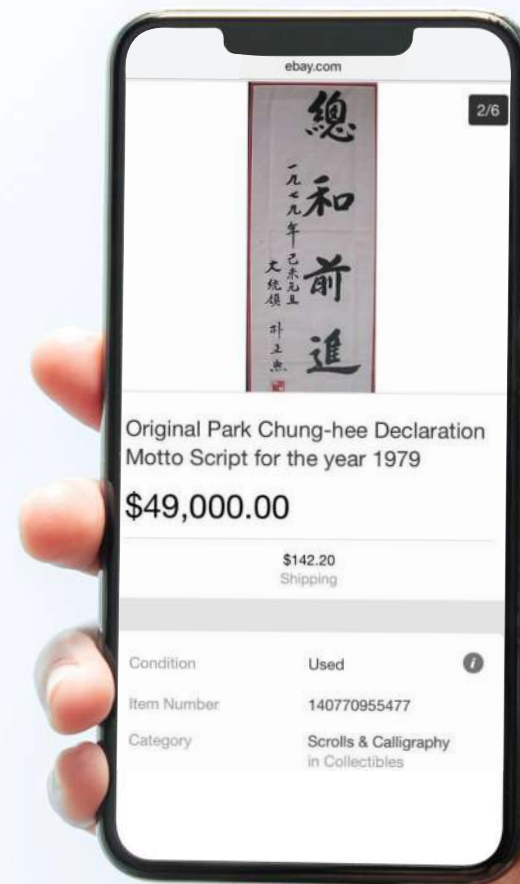

The best recognition for our company is the opportunity to handle the most serious and responsible assignments, including those of a foreign policy nature. In 2016, we were honored to assist in the search and delivery of a gift for the political leader of South Korea. We bought a relic with a four-character New Year's greeting written by a former South Korean president (the father of the current one) and delivered it from the United States. The order was completed on time, all conditions of the high-ranking customer were met. President Vladimir Vladimirovich Putin personally handed over the gift.

The confidence of the authorities is a guarantee of the quality of our services.

**Три года не виделись** Чего стоит ждать от встречи президентов России и Южной Кореи

По словам Путина, которые приводит РГ, после смерти Пак Чжон Хи реликвия попала в США, где ее купил американский кореец. «Мы ее обнаружили на одном из рынков США и выкупили. Насколько я знаю, это единственный существующий экземпляр надписи. Думаю, что для вас она имеет особое значение, а потому я хотел бы подарить ее вам», — сказал президент России. Пак Кын Хе, как сообщили в ее окружении, была очень тронута.

Putin presented the South Korean president with the text of her father's last wish

Russian President Vladimir Putin gave his South Korean counterpart a final New Year's wish written by her father, according to the administration of Park Geun-hye, writes "Rossiyskaya Gazeta".

General Park Geun-hye, who was president from 1963 until 1979 (until his assassination), wrote four characters in the last year of his life that can be roughly translated as: "Through the unity of the people, let us move forward." It was the tradition of the country's leader to beautifully write one most important wish, the text of which was then placed in a frame.

"On September 3 in Vladivostok, Russian President Vladimir Putin, after finishing a business lunch, told our leader that he wanted to give her a special gift. "This is not an official gift, this is my personal gift to you," the administration of the president of the Republic of Korea quoted the Russian leader as saying.

According to Putin, cited by RG, after Park Jung-hee's death the relic ended up in the United States, where an American Korean bought it. "We found it in one of the U.S. markets and bought it back. As far as I know, it is the only existing copy of the inscription. I think it has a special meaning for you, so I would like to present it to you," the Russian president said. Park Geun-hye, according to her entourage, was very touched.

Putin stressed that the gift had a special symbolic meaning. "As it is written here, I would like our nations to walk together into the future," he added.

The presidents met Sept. 3 in Vladivostok on the sidelines of the Eastern Economic Forum. During the talks, they discussed the current state and prospects for the development of bilateral relations.

Valuation

When planning a purchase, the question of a car's value plays an important role.

Used Cars

The value can be affected by the presence of optional extras, clean history, unpainted bodywork, and more. You can send us a request for more specific information, and then we will do an analysis based on the auction results from around the country.

Wrecked Cars

The cost of a used car is affected by many factors. Here are the main ones:

- The market value of a car with a Rebuild Title. Its price is usually 30-40% lower than that of its "clean" counterparts.
- The cost of repairs. Auction specialists estimate the approximate price of repair in the U.S. As a rule, these figures are greatly inflated, but you should keep in mind that the more they are, the lower will be the cost of the lot, and therefore lower will be some types of customs clearance (for example, on a legal entity).
- Current rate. It will be the starting point for bidding. As a rule, the value of the sale, on average, exceeds the initial rate by 30%.
- Clean Title, up to 70k miles, and airbags in good condition are the main factors that increase the value of a car in the US.

CARGO PICKUPS

To predict the approximate cost of a pickup truck, it is best to contact our experts. They will analyze all the specifics of each particular case, after which they will declare you the most likely amount.

Useful sites for estimating the cost of cars in the USA: Kelley Blue Book Nadaguides. These resources have average car cost data based on recent sales statistics. Data on the average cost of cars in the USA is used by customs services of most countries, including Russia. If you have any questions about the cost, send us a request and we will send you all the detailed information. Final cost of a car from the USA consists of:

- Cost of the lot at auction;
- Auction fees;
- Cost of delivery within the U.S. and by sea to the customer's port;
- Documents delivery by mail (FedEX, DHL), \$70;
- The amount of customs duties;
- Company interest (10% of the lot price, but not less than \$500 and not more than \$1000).

ORDER INFORMATION

The process of selecting and ordering a car. A description of the stages of purchasing a car and other equipment:

- You find and analyze lots available at auctions in the USA, then, after you have made a choice, place your order. You can place an order to search for a car or equipment you are interested in, and we will find it for you. You can also ask any question using the feedback form, and you will be contacted as soon as possible.
- For first time customers you must make 10% prepayment (min \$500) of the lot price.

WAYS TO MAKE A PREPAYMENT

If you have not purchased at an auction, prepayment is a guide to purchase your chosen item or to repurchase your car from the dealer (seller). If you are not able to buy an item at an auction within your specified amount, you can keep the prepayment to bid for another item. Or we can return you the prepayment, minus the amount of bank charges (\$40). Payment is made under contract at the Moscow Motor Show or transferred to a U.S. bank account.

- If you win the specified lot, a contract of sale and purchase is signed between the company and you, after which you need to make the balance of the amount, minus the prepayment within the next three days. Your total amount is stated in the contract and includes the lot price, auction fees, shipping costs, and shipping costs to your port. If you do not pay the full amount within one week, your vehicle is being auctioned off and your pre-payment is not refunded.
- During the next 2-10 days the purchased vehicle is delivered to the closest port of embarkation for loading into a container. You are then sent a copy of the shipping manifest and data sheet, as well as instructions for tracking the location of the container.

Once export customs clearance is complete (takes 7 to 12 days), you will be sent the original data sheet, bill of sale, port bill of lading, and invoices, with our stamps if needed. You will need these documents in order to receive the car and also for customs clearance.
